255126 DEERFIELD RIVER AT #2 DEVELOPMENT, BUCKLAND MA
PUBLISHED ON MAR 23, 2018 AT 14:19:18 - EXPIRES MAR 23 MIDNIGHT

For the Deerfield River at Great River Hydro's #2 Development, Buckland MA:

The total spill below the dam is 130 CFS
Similar conditions are expected to continue through MIDNIGHT Sat MAR 31

At 2:18 PM today the total flow below the dam was 507 CFS

The following forecast for flows below the dam is based on the most recent load forecast from the New England Independent System operator which schedules and dispatches generation throughout the region:

Until MIDNIGHT today, Fri, 800 CFS

Flows will often differ from this forecast for reasons beyond the company's control including regional energy demand and clearing price, system operating conditions, equipment failures and weather.

All published flows are approximate and forecasts are estimated based upon anticipated energy demand and costs in addition to weather conditions. Actual flows will vary and can change quickly at any time. Stay alert and wear an approved flotation device. Never go in or near the water until you know and accept the risks you are assuming by entering this area!
