## **365123 THE SALMON RIVER AT LIGHTHOUSE HILL**

PUBLISHED ON OCT 22, 2018 AT 16:58:35 - EXPIRES OCT 26 11:59 PM

For the Salmon River at Brookfield Renewable Power's Lighthouse Hill Dam, Altmar, NY. The following predictions are for flows in the river just below the powerhouse unless otherwise noted.

Until 11:59 PM Fri OCT 26, 335 CFS

All published flows are approximate and forecasts are estimated based upon anticipated energy demand and costs in addition to weather conditions. Actual flows will vary and can change quickly at any time. Stay alert and wear an approved flotation device. Never go in or near the water until you know and accept the risks you are assuming by entering this area!

Any changes to this schedule are normally made by 3:30 PM Daily. One or more flow increases may occur during this forecast period. Here is about how long it will take after a flow increase at the power plant for fast rising waters and swift currents to reach the following places downstream.. ALTMAR - 30 minutes; PINEVILLE - 1 hour and 40 minutes; RT 81 - 2 hours and 50 minutes; Blackhole - 3 hours and 30 minutes.
