**365123 THE SALMON RIVER AT LIGHTHOUSE HILL**  
PUBLISHED ON JUL 18, 2018 AT 00:01:47 - EXPIRES JUL 27 11:59 PM

For the Salmon River at Brookfield Renewable Power's Lighthouse Hill Dam, Altmar, NY. The following predictions are for flows in the river just below the powerhouse unless otherwise noted.

Until 11:59 PM Fri JUL 27, 185 CFS

Due to circumstances beyond the company's control, the next scheduled Whitewater release is cancelled.

All published flows are approximate and forecasts are estimated based upon anticipated energy demand and costs in addition to weather conditions. Actual flows will vary and can change quickly at any time. Stay alert and wear an approved flotation device. Never go in or near the water until you know and accept the risks you are assuming by entering this area!

Any changes to this schedule are normally made by 3:30 PM Daily. One or more flow increases may occur during this forecast period. Here is about how long it will take after a flow increase at the power plant for fast rising waters and swift currents to reach the following places downstream.. ALTMAR - 30 minutes; PINEVILLE - 1 hour and 40 minutes; RT 81 - 2 hours and 50 minutes; Blackhole - 3 hours and 30 minutes.
