505121 CONNECTICUT RIVER AT WILDER DAM, WILDER VT

PUBLISHED ON NOV 21, 2017 AT 22:33:13 - EXPIRES NOV 22 MIDNIGHT

For the Connecticut River at Great River Hydro's Wilder Dam, Wilder VT:

At 10:26 PM today the total flow below the dam was 5522 CFS

The following forecast for flows below the dam is based on the most recent load forecast from the New England Independent System operator which schedules and dispatches generation throughout the region:

Until 8:00 AM tomorrow, Wed, 5,500 CFS

From 8:00 AM tomorrow until 11:00 AM tomorrow, 9,900 CFS

From 11:00 AM tomorrow until 4:00 PM tomorrow, 5,500 CFS

From 4:00 PM tomorrow until 9:00 PM tomorrow, 9,900 CFS

From 9:00 PM tomorrow until MIDNIGHT tomorrow, 2,000 CFS

Flows will often differ from this forecast for reasons beyond the company's control including regional energy demand and clearing price, system operating conditions, equipment failures and weather.

All published flows are approximate and forecasts are estimates only. Actual flows will often vary and can change quickly at any time. Always be alert and wear an approved flotation device. Never go in or near the water until you know and accept the risks you are assuming by being in this area!
